

Write an application for student registration. Allow the user to enter firstname, last name, registration number and program of Study. An application should save the entered details for each student to a file called student_register.txt, where xxxx stands for your registration number. The text file should have the format presented below:

Sno	First Name	Surname	Registration Number	Program_of_Study
1.	Ambwene	Gwantwa	2040-000-000002	Bsc. in Computer Science
2.	Eliwende	Abdulla	2040-000-000004	Bsc. in Computer Engineering
